

Ladies Weekend Pennants – Conditions of Play

1. Only Clubs which have 3 or more players attend at least 50% of Pennant Carnivals in a year shall be eligible for the competition in the following year.
2. The number of Clubs participating in the competition will determine the number of points allotted.
3. Points will be determined and placed in order from the aggregate of the best 3 nett scores returned from each club.
 - i. On occasions where any split Division plays a Stableford event, those scores must be adjusted back to the par of the course by means of “Adjusted Gross” according to the World Handicap System. The main method of arriving at the Adjusted Gross Score is to adjust each hole downward to net double bogey, if necessary. That means, for handicapping purposes, a player can have up to Par + 2 (strokes) + any handicap strokes received on that hole e.g., if a player had 36 pts and the par of the course is 72, that player is allotted 72 nett.
4. Captains or their deputies are responsible for providing these scores to the District Representative at the Carnival, or to the Host Club Captain.
5. If a club has only 1 or 2 players at the event, one point will be allotted.
6. If a club is not represented, zero (0) points will be allotted, but there is no reduction in points for all other clubs present e.g., 5,4,3,2,0.
7. In the event of a tie in any position, the points for that position and the next will be shared evenly.
8. In the event of a tie at the completion of the season, a countback of points awarded at the last 2 Carnivals (excluding the home games of the tied teams) will decide the winner.
