

## **GWB Morrie Fanning Medal – Men's Conditions of Play**

Since 2002, the medal has been awarded to the player who has won the most events during the calendar year.

A minimum of 6 events played was required for qualification.

In 2020, it was decided that the Morrie Fanning Medal would be awarded to the player who returned the best Stroke Average for the year. This is defined as the number of strokes over/under Par for the course.

“Recognised Golf Club” means a golf club affiliated with Golf Wide Bay.

The following conditions were formulated.

1. All Open Days in the District will be recordable.
2. The Morrie Fanning medal is open to all male golfers who hold a current GA handicap and are members of a recognised golf club.
3. Gross Scores will be compared with the daily Par for compilation of results.
4. The District Championships will count as 2 separate days.
5. The best 6 scores to be counted resulting in the lowest total.

With the committee's discretion, the top 4 players at time of selection will qualify for the Inter-Association.
